

CAMPUS Asia Newsletter

Waseda University

~ Issue 2 ~ January 2018

Greetings from CAMPUS Asia Office! We are happy to be able to provide the second issue for the monthly newsletter so that 3 universities can share information on events and people related to CA.

THIS MONTH'S SPECIAL!

“Preparing for the Joint Intensive Program (Spring 2018)”

On December 12th 2017, Waseda Univ. held an orientation meeting where the participants of the Joint Intensive Program (Spring 2018) gathered for the first time! The meeting was held to understand the purpose of the program and to go over the schedule from February 6th to 13th. In the first half of the program, participants from Peking, Korea and Waseda Univ. will visit Iwate prefecture in the Tohoku Area where the East Japan Earthquake occurred 7 years ago. There, students will have chances to directly listen to the people about how they are reconstructing their lives and societies after the disaster. The latter half of the program will be spent for activities among the three universities to further deepen thoughts on the topic. Let's get well prepared and hope for the great success of the program coming up next month!

Joint Intensive Program (Summer 2017) in Nagasaki

Thinking about “peace” in Nagasaki which was one of the two cities hit by an atomic bomb in 1945 during the World War II. In total 30 participants attended the trip: 24 students (4 from Korea, 4 from Peking & 16 from Waseda), 2 TAs and 4 Faculty and Staff members.

TAs (Teaching Assistants) for the Joint Intensive Program (Spring 2018)

Hi! We're hoping to support everyone to make this trip an exciting and meaningful experience!

Experiences at Korea University

“Letter for Next DDP/Exchange Students”

I am a Chinese student from Waseda University. I have studied at Korea Univ. (KU) as a Double Degree student.

I have been to many schools, but I enjoy KU the most. It is a place where you will learn essential knowledge and put all your efforts into your major and courses you enjoy. During my study period, I took various classes, including economics, statistics, business, psychology and political science. KU provides a first-rate education for every student who wants to learn from the best.

It is a place you will find unity and you will eventually regard KU as home. Korea University Buddy Assistants (KUBA), a student organization, held amazing events every month, including cheering orientation, field trips, IPSELENTI, KU-Yonsei University sports competitions and an international student festival. KU provides common ground for students with different backgrounds and experiences. I have thoroughly enjoyed my student life at KU, but I must say farewell now. I highly recommend this Double Degree Program and hope you have a wonderful time at KU.

-Nan Wu (DDP student from Waseda Univ. to Korea Univ., Mar. 2017 – Feb. 2018)

CAMPUS Asia Orientation and Dinner

An orientation & dinner for CAMPUS Asia long-term exchange students was held on December 20th.

3 students planning to study at Korea Univ. and 4 students at Peking Univ. in 2018 gathered.

We also welcomed a CA student from Peking Univ. and Mr. Chris Hammond, a researcher of CAMPUS Asia Program.

“As one of the participants, I had a great opportunity to get to know the people who share the similar interests and goals. I would like to thank all the staff members and the professors for creating this opportunity.”

-Jin Hirakawa (DDP student from Waseda Univ. to Korea Univ., Mar. 2018 – Jun. 2019)
