

Waseda Photo Journey

I studied at Waseda University for the first semester of 2025. I was really happy as an exchange student in the social science department.

1. School Life

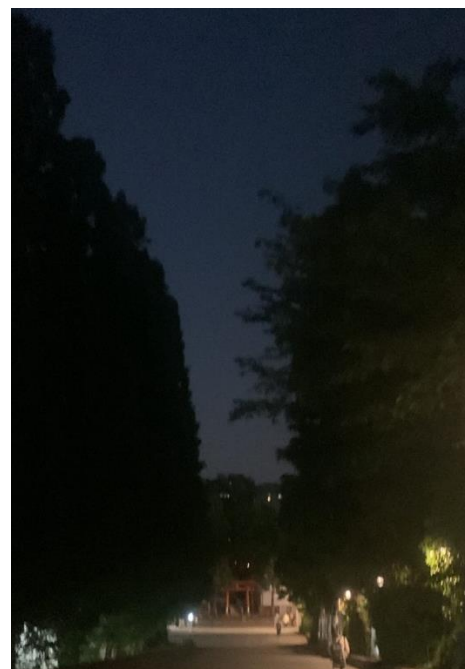

I took a semester in halls 14 and 3 of Waseda University. Hall 14 has an escalator up to the 6th floor, so you can easily get to the classroom. Hall 3 is also comfortable because it has an escalator. There is a student cooperative on the first floor of Hall 14 where you can purchase snacks and drinks, and there is a 7-Eleven on the first floor of Hall 3.

If you have to study at school, I recommend the library of Toyama Campus and the library of the Department of Social Sciences on the 7th floor of Building 14.

The Toyama Campus Library has a similar atmosphere to Korea University's Law Library, and it is comfortable because it has outlets for every seat. Also, there is a student cafeteria nearby.

The library of the Department of Social Sciences recommends taking the elevator. There is glass on the ceiling, so the lighting is good, and the view from Hall 14 is good.

Toyama Campus Library and Toyama Campus

2. A recommended Restaurants

Ramen Tomo

I've been to Tomo about five times a month. Special ramen and Show you ramen are all delicious.

TWEDDLE COFFEE

It offers a cafe-like atmosphere in Korea. I recommend a Napolitan pasta set for lunch.

Besides, I recommend Sanpin Shokudo, Milk Hall on Toyama campus.

3. Making friends

I recommend you go to an exchange student social party organized by Waseda. I still keep in touch with the friends I met at the party!

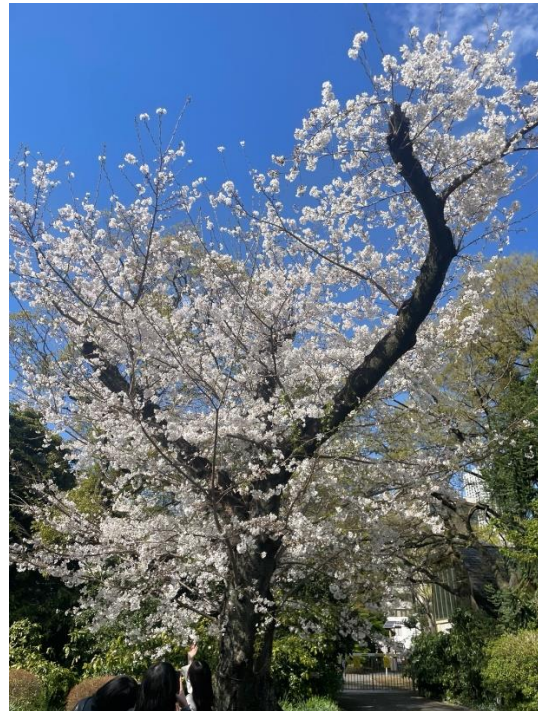

Alternatively, take advantage of the club fair period, which runs during March and April. Go to the club welcome, see the club, and join the club.

4. Enjoying Japan Using Student Status

Japan has many benefits for student status. If you present your student ID, you can enter Shinjuku Park at a discounted price. Bring your student ID with you when cherry blossoms bloom.

Shinkansen is also eligible for student discount, so get a student discount document from school and travel all over Japan.

special price for student at bowling

Also, Waseda and Korea University have many exchanges with each other. Go to Korea University and Waseda baseball exchanges.

Visit various amusement parks in Japan, too. In particular, Fuji-Q Highland has one of the most interesting attractions in the world.
